

Fire Procedures & Evacuation Instructions

- R** raise Alarm (or Remove People)
- A** alert other people
- C** contain fire if safe to do so
- E** evacuate to Assembly Point

In the event of a fire dial '9' for Reception or dial '0' for an outside line, then '000'. Ask for Fire Authority and give clear information of name and address of premises.

Should an evacuation be necessary, Resort Staff will sound an alarm and you should then proceed in an orderly fashion to the Assembly Point in the Car Park (Point 'A' on the diagram).

If pathways to the Car Park are impassable proceed to the alternative Assembly Point at the rear gate (Point 'B' on the diagram).

Thank you for your cooperation.

Sebastien Godbille
Director
